MLDE (Machine Learning & Data Engineering). Bachelor's degree, estimated completion in May 2026

About Myself

Date of Birth - 28.11.1999

I was born in Moscow, at age 13 I moved to Finland, where I am currently living and studying. Since I was 12 years old, I have participated in the family business (Scandinavian Travel Group), helping my parents in various jobs. Later I have taken on roles with more responsibility (see experience).

I have worked in the Tourism environment since before I was a teen. I have also grown up in a family where everyone was involved with Tourism.

I am a fast learner.

In 2017 during my work at Scandinavian Travel Group, I revamped the entire shift planning system, moving it to a digital platform and making the planning process easier for managers and employees.

I have always been interested in computers, general tech, and IT.
